New certification programme For evaporative coolers

CALL FOR PARTICIPATION TO THE LAUNCHING COMMITTEE

Paris, 17th April 2015 - Eurovent Certita Certification has decided to set up a Launching Committee in order to develop a certification programme for Evaporative Coolers.

All companies manufacturing Evaporative Coolers are entitled to be part of the Launching Committee.

The task of the Launching Committee is to establish specific requirements for a new certification programme to be developed. This includes preparation of relevant reference documents and first choice of laboratory / test agency / audit agency if applicable.

Wish to participate in this Launching Committee, or get further information?
Please contact Mr Mickaël HOLLE m.holle@eurovent-certification.com

Eurovent Certita Certification is a major European certification body in the field of HVAC-R, operating 35 certification programs and generating about € 12 million in turnover. Eurovent Certita Certification provides voluntary third part certification services on the full range of HVAC-R products, whatever their final use, either in residential domestic buildings or in industrial facilities for instance. Eurovent Certita Certification is offering various certification schemes tailored to the needs of manufacturers and stakeholders on their specific markets. It focuses on certifying products' performances as well as data needed to implement regulations. The main quality marks currently proposed are the marks "Eurovent certified performance", NF, CSTBat, and the European Keymark.

On a market ever more demanding in terms of energy performances and environmental challenges, Eurovent Certita Certification supplies certified data at a European level and provides the needed confidence.
