

Product performance certification delivered by Eurovent Certita Certification adds a considerable value and plays a key role to ensure transparency and deliver high quality and reliable data.

Our commitment in adding value along the renewable energy decision chain goes one step further and extends to **installers, household buyers or contractors** for whom we are implementing on-line tools to support them at every stage of their projects, from the quotation to the filing for local incentives or tax rebates.

By a simple, 24/7 connection to our website

[www.eurovent-certification.com](http://www.eurovent-certification.com)

It is now possible to download **Product Performance Reports** that provide detailed performance features and values such as the **COP (Coefficient Of Performance)** or the **Sound Power Level**.

1. Go to Certified Products
2. Select a product
3. Click on the **PDF icon**  in the Model column on the left to download the performance report

Nota: From September 2015, the energy class will be clearly displayed on mini energy efficiency labels for all programmes involved.
